Hi IJCTT- We have updated review comments for the paper "STRATEGIES FOR INTEGRATING GENERATIVE AI IN INDUSTRIAL SETTINGS".
Please see comments below, please have a look and in case any correction is required, please let us know.

• 12% similarity with some internet sources and some publications identified (Plagiarism detection powered by turnitin®). Maximum overlap with: https://www.databricks.com/sites/default/files/2023-

10/2023-10-eb-big-book-of-mlops-2nd-edition.pdf. Check plagiarism using some tools after revision. The similarity index must be less than 8%.

Reduced similarity Index, please validate this.

• Tweak the introduction section by clearly mentioning the research gap and introducing the problem well.

Updated introduction.

• The review of the literature is not thorough so the reader is not given an adequate background about the topic.

Updated this.

• The analysis in the paper is minimal. Not enough of an advance or of enough impact for the journal. Authors can add a few more chapters and present the research with detailed analysis with supportive data.

We have added 3.3, 3.4 and 3.5 additional sections.

• Authors can use to present the experimental results and their corresponding analysis in detail supported by graphical and tabular data [must be in the editable format].

• Authors must use clear images for proper rendering of the final published paper and should not distort on zooming [Fig no. 1 to 5 should be in the high-resolution format]. (Figure number 3 missing)

Updated

• Strictly prepare your paper in the form of our updated journal template available on the website. Kindly read the instructions and adhere to our journal template.

We have updated the paper in the Journal template.

• Include a detailed discussion on how and why you were able to achieve better results in comparison to state-of-the-art techniques or already reported in the literature.

Emphasis on GenAI model scanning and Security.

• The research paper should be written in the perspective of the third person. Words such as 'I' 'we' 'our'etc. need to be avoided.

Removed 'I' and 'We'

• Perform Spell and grammar checks. No word breaks at the end of lines.

Spelling and grammar check completed.

• It is imperative that all citations are not manipulated in any way, including self-citations (both author self-citations and journal self-citations strictly not allowed). We request that you diligently review your work and remove any instances of such manipulation.

There is no self-citation.
